Bootstrap

Figma

## SUMMARY

Passionate and self-driven individual with a unique pathway into the IT field through engaging conversations with my girlfriend, who is a talented Web designer. Collaborated on personal website projects, combining creative design and emerging web development skills. Proactively pursued self-study and completed relevant online courses. Excited to contribute creativity, problem-solving, and teamwork to innovative web projects. Motivated by a fulfilling web development career, fueled by practical experiences and a genuine passion for the digital realm.

## PROJECT

### ANC(E-Commerce) [View Website](#)

- Solely developed an E-commerce website using React, collaborating closely with a designer
- Utilized styled components for styling, and integrated Firebase for the database, handling product data

APR 2023 - PRESENT | QUEBEC, CANADA

### Continum(Agency) [View Website](#)

- Independently developed a responsive website, showcasing adaptability across various devices and screen sizes
- Demonstrated problem-solving skills by independently resolving challenges encountered during development

FEB 2023 - APR 2023 | QUEBEC, CANADA

### Forkify(Sharing Recipe)

- Developed a fully functional recipe website that utilized an API to fetch recipe data and display it dynamically to users
- Implemented key features such as search functionality, recipe filtering, and user authentication to enhance the user experience

DEC 2022 - DEC 2022 | QUEBEC, CANADA
